

# PapooTouch

The new generation  
of AAC devices!

Touchscreen AAC device, video, pictures, music player and video game, all in one!

**PapooTouch** is as performant as a computer... but in your hands. Ergonomic, stylish, handheld: **PapooTouch** is simply the most advanced AAC device of the world.

## Communicate with the world

Thanks to the symbols feature and a high quality text-to-speech, you're able to communicate with your family and friends.

## Say what you want out loud!

**PapooTouch** enables you to vocalize what you write thanks to 3 keyboards: qwerty, ABC, and keypad.

The Grid 2 compatible

## Your movies, pictures and music at your fingertips

Transfer your movies, videos, pictures and music from your computer, then watch them on your **PapooTouch**: digital entertainment is for all.

## Play to your favorite games

Thanks to its touchscreen and its powerful electronic processor, you're living a new game experience. Begin with a Sudoku-like game then download other games from [www.papoo.fr](http://www.papoo.fr) (available soon)
